

TRY THIS ORANGE CUSTARD.

Confection That Will Be Appreciated on a Hot Day.

A delightful dessert, called orange custard, is made by taking the juice of a sweet orange and half the rind, which has been boiled until tender. After it has cooled and has been beaten fine in a mortar, a teaspoonful of brandy should be added with the orange juice, half a cup or more of granulated sugar and the yolks of four eggs. Into this mixture is poured two cups of boiled cream or rich milk, and the whole beaten until the custard is cold; then it should be poured into custard cups, with a bit of preserved orange placed on the top of each cup, and served at once or set away to cool.

Butter and orange juice is prepared by mixing the juice of three sweetened oranges with as many teaspoonfuls of rose water, then adding the well-beaten yolks of six eggs, the whites of four and two cupfuls of powdered sugar. The mixture should be stirred over a slow fire till it thickens, then a tablespoonful of butter should be poured into a dessert dish and set away to cool.

VIENNOISE PUDDING IS GOOD.

Dessert Dish That Should Be Served with Sweet Sauce.

Put two tablespoonfuls of granulated sugar into a small pan over the fire; let it melt and become a rich brown color, but not black; allow to cool for a few minutes, then add three-quarters of a pint of milk. It will at first cause the sugar to set in a hard lump. That is quite right; merely stir it over the fire for a few minutes, and as the milk becomes hot the sugar will remelt.

Mix together in a basin three ounces of cleaned sultana raisins, three tablespoonfuls of sugar, the grated rind and strained juice of one small lemon and five ounces of bread cut into small cubes like ordinary dice. Add the colored milk and allow to remain in a cool place for ten minutes. Beat up two eggs and add them with one glass of home-made wine. Let soak for 15 minutes. Pour the mixture into a buttered mold. Twist a piece of buttered paper over the top. Put the mold in the steamer for about one hour. Turn out and serve with sweet sauce.

Fresh Rolls Daily.

When molding out the leaves set aside any desired quantity of the dough into the ice box. If kept perfectly cold this will remain sweet an indefinite time and can be shaped into rolls, used as basis for a raisin bread, coffee cake, or in any way desired. Allow about 2½ hours in a warm place for raising the dough. If rolls are desired for breakfast mold them the last thing before retiring and set them where they will not be too warm. They will be ready for the oven in the morning. In this way fresh bread stuff in a variety of kinds may be had all through the week.

For raisin bread add to two cups of the dough two-thirds of a cup of sugar and a cup of seeded raisins. Mix thoroughly and let raise three hours.

Baste Perforation Marks.

Instead of using lead pencils, chalk, tracing wheels to mark perforations when cutting out a pattern, run a basting thread through each perforation. Leave it a good length, knot at each end, and when pattern is removed pull double folds of material apart, cut thread in center, and knot ends. By this method the material is not disfigured, perforations are exactly where they should be, and only one pinning on pattern is necessary.

Perk Salad.

One large cupful roast or boiled perk, chopped fine. One boiled potato, mashed with one tablespoonful butter. One teaspoonful dry mustard; two cucumber pickles, chopped; two hard-boiled eggs, chopped; black pepper, salt and vinegar to mix smooth.
